

PIPE TOOLS & VISES
SINCE 1896

LCRC4 LOW CLEARANCE ROTARY™ CUTTERS

- Cuts 2 – 4 inch steel, cast iron and ductile iron pipe, depending on the cutter wheels installed.
- Features a slip-on handle that is used to both tighten and turn the cutter around the pipe in one direction.
- Only needs 4 inch (102 mm) clearance around the pipe to cut pipe that other tools cannot reach.
- LCRC circles the pipe and its varied handle slots provide options for turning the cutter effectively and smoothly.
- Heavy-duty, ductile iron frames.

WHY REED?

These low clearance cutters are exclusive to Reed!

Catalog No.	Item Code	Pipe Capacity		Weight	
		in-nom.	actual O.D. mm	lbs	kg
LCRC4I	03306	2-4 cast/ductile iron	60-125	12	5.5
LCRC4S	03307	2-4 steel	60-125	12	5.5
